

## EDUCATION

- **Studied Industrial Technology**  
Ball State University

## AREAS OF EXPERIENCE

- Specialty Earth Sciences, LLC – 8 Years
- The HydroTech Corporation – 25 Years

Mr. Smith is a Senior Project Manager with Specialty Earth Sciences, LLC and has over 33 years of extensive experience in the environmental field. Mr. Smith has experience in groundwater and soil remediation projects in Indiana, and throughout the United States.

His experience includes preparation of Phase I Environmental Site Assessments for diverse land uses including agricultural, commercial, municipal, and industrial sites. He has also completed soil and groundwater investigations at properties with petroleum hydrocarbon, polychlorinated biphenyl, heavy metal, and chlorinated solvent impacts.

He has supervised and completed numerous soil, groundwater and vapor intrusion investigations with local, state, and United States Environmental Protection Agency (U.S. EPA) oversight. Mr. Smith has also directly supervised the construction, installation, and startup of numerous soil, groundwater and vapor intrusion remediation systems.

Mr. Smith has experience that also extends into the following areas: Spill Prevention Control and Countermeasure (SPCC) Plans; Storm Water Pollution Prevention Plans (SWP3); vapor intrusion and indoor air quality inspections and mitigations; lead based paint testing and abatements; geotechnical investigations; construction management; Occupation Safety and Health Administration (OSHA) hazard communication compliance; OSHA hazardous waste training; and, waste characterization and minimization.

## PROJECT EXPERIENCE

- **Storm Water Pollution Prevention Plans and Sampling** – Mr. Smith has prepared Storm Water Pollution Prevention Plans (SWP3) for a major packaging company with several locations throughout Indiana, for bulk petroleum facilities, and for other clients. Mr. Smith coordinated storm water sampling, and prepared necessary compliance reports for several years at each facility.
- **Environmental Site Assessments and Investigations** – Mr. Smith performed and managed numerous Phase I Environmental Site Assessments, All Appropriate Inquiries and Phase II Subsurface Investigations. Project sites consisted of the following; residential, agricultural/undeveloped, multi-tenant commercial and industrial properties in Indiana, and throughout the Midwestern and Southeastern areas of the United States.
- **Groundwater Monitoring Projects** – Mr. Smith managed the installation and sampling of groundwater monitoring wells at sites located in Indiana, and throughout the Midwestern and Southeastern areas of the United States.

## TRAINING/LICENSES

- **Licensed Asbestos Inspector** – Indiana Department of Environmental Management (License #191911035)
- **Underground Storage Tank (UST) Certification** – State of Indiana Fire Marshal Office (License #UC2000948762)
- **Certification in UST Decommissioning** – International Code Council
- **Environmental Professional** as defined by the ASTM Standard
- **OSHA 40-Hour HAZWOPER**
